100 POISONED AT BANQUET

GIRL STUDENT POISON VICTIM; MAN AT DEATH

Lake Forest Senior May Have Been Forced to Swallow Poison.

NO SUICIDE MOTIVE.

A midnight autopsy performed on the body of Miss Marie Louise Lambert, the 18-year-old high school girl found in a clump of woods on the Harold F. McCormick estate in Lake Forest yesterday, served only to deepen the mystery surrounding her death when Coroner John L. Taylor emerged with the announcement she had been poisoned. "We have found sufficient poison in the girl's stomach to have caused death," said the coroner. "The kind of poison has not been determined." While the examination of the body made impossible earlier in the day because of her frozen condition—was in progress, State's Attorney Ralph J. Dady, who has taken charge of the investigation, was closeted at the city hall with a number of high school friends of the victim.

ACCOMPANIED BY MAN.

"We are confident Miss Lambert was poisoned," he said when he stepped out of his office following a consultation with the coroner. "We do not know whether the poison was taken with suicidal intent or whether it was administered by some one else. We believe a man was with her when she died. It is possible she took poison because of some disappointment. It is also possible she was forced to take it." "There was a powdery substance in her hair and some was in her right hand. She could have obtained the poison from the chemical laboratory at the high school. We have been unable to find a container for the poison, although the woods have been searched thoroughly. It may have been removed by the man who accompanied her into the woods. We are bending our efforts towards locating that person, and when we do we believe the motive for her act will be explained."

CALL IN DETECTIVE.

Both Mr. Dady and Mayor William Mather Lewis of Lake Forest, who has called in a private detective agency to investigate the case, declared no expense would be spared in solving the case surrounding Miss Lambert's death to the bottom. "We have told the Burns agency to be as many operative on the case as necessary," said Mayor Lewis. The hunt for the man whose footsteps in the snow run parallel with those of Miss Lambert's smaller shoes in her wanderings through the woods will begin in earnest this morning. The well-dressed prints of the man's shoes, probably used 10 to 12 hours, have been photographed and copies distributed among the police, detectives, and deputy sheriffs working on the case.

THESE AND THE DESCRIPTION OF A MAN SEEN

(Continued on page 7, column 1.)

Mayor May Sue Voters' League—If It Has Pricel

"Making of Irresponsible Statements Must Stop," Thompson Says.

"BOOST CHICAGO"

A personal damage suit against the Municipal Voters' league was promised by Mayor Thompson last night as his answer to the league's attacks on him in its last annual report. "In the middle of a dining speech before the Rotary club at the Congress hotel he thumped the table before him and shot this at his hearers: "The Municipal Voters' league the other day made some statements about me. The next day I told the newspapers they were unqualified falsehoods. Now I'll tell you something more. I'm going to hold the Municipal Voters' league responsible for those falsehoods if they've got the price of a lawsuit. That sort of thing—making of irresponsible statements—has been going on in the city of Chicago too long!"

Blaps "So-Called Reformers."

The mayor's declaration of war was greeted with cheers, as were the other caustic references to the city council and "so-called reformers"—the term is the mayor's—with which his speech bristled. The mayor lambasted the aldermen for creating a "waste budget" for turning down his school board's application "throughout the winter" for "trying to run the administration." He related a laugh when he mentioned that every one of the outgoing aldermen endorsed by the Municipal Voters' league had figured in the recent primary ball scandal. "Thirty-nine aldermen—those positions at the top of the ballot," he said. "But your M. V. L. stands for that. They call it a coincidence."

A Boost for Chicago.

"I get discouraged sometimes," he went on, "and wonder why in the devil I worked so hard to get such a tough job. But I'm going ahead. It is only a question of time when the city in which you live will be the greatest city in the world. "It is the greatest in some respects now. What hurts me is we don't know it, and the world doesn't know it, and we aren't getting any good out of it. I want to commend two Chicagoans tomorrow for what it did last summer in boosting Chicago as a summer resort. I hope the other papers will get in, forget the knicker, and help this town."

CHARACTER IN BOOK MEANT FOR JUDGE? DAMAGES ASKED

New York Magistrate Thinks Reputation Injured—Sues Author and Publishers for \$300,000. New York, Feb. 10.—(Special.)—Taking exception to remarks made by George Brown Howard, playwright and author, in his book, "God's Man," about one "Magistrate Corrigan," City Magistrate Joseph C. Corrigan today brought a \$300,000 libel suit against the author and the Bobbs Merrill company, the publishers. Magistrate Corrigan thinks the similarity of the name of the book's character to his own is close enough to be an intimation that he has been guided in the performance of his duties by improper Tammany influence and that he is brutal and unjust as a magistrate.

ORIGIN OF THE NAME.

Late Dr. Murphy said: "An investigation disclosed the name of the person who developed in the soup served at the banquet. It was a bulletin from the city of Chicago this morning. The bulletin was then permitted to cool through the day and boiled against it. "Boiling is the great virtue of the soup in which the name was developed. It cooled. When it was cooled the name was killed, but the poison (the name) was still in the soup. "It was about twenty minutes after the soup had been consumed that the first man got up and left. Then almost everybody began to turn white. Mr. Taylor (the doctor) was called. He found the man was dead. "It was about twenty minutes after the soup had been consumed that the first man got up and left. Then almost everybody began to turn white. Mr. Taylor (the doctor) was called. He found the man was dead."

PTOMAINES AT FEAST FOR NEW ARCHBISHOP

Distinguished Diners at University Club Have to Leave the Tables.

ONE DROPS TO FLOOR.

More than 100 distinguished persons, including visiting prelates of the Roman Catholic church and some of Chicago's leading jurists and business and professional men, were poisoned, supposedly by ptomaines in soup, last night at the University club during the banquet given in honor of Archbishop George William Mundelein.

Dr. John B. Murphy quickly organized

an "emergency field hospital" as he termed it. The ptomaines seemed to be confined to the bulletin served at certain tables.

QUEST FOR THE POISON.

Archbishop Mundelein, Gov. Deneen, Roger C. Sullivan, and other noblemen, excepted, although Gov. Deneen turned "pale as a ghost" while Mr. Francis C. Kelley, head of the Catholic Church Extension society, who arranged the banquet, was forced to leave the room. After the victims had been taken from the banquet hall groans and sounds of distress came from nearly every floor in the club on which there were dining rooms. Dr. Murphy, alarmed by the panic by announcing the poison was in the soup and not the oyster or meat courses, and while exceedingly disheartened, would soon be allayed. Most of those more severely affected were able to return to the banquet hall and resume the dinner later. After the soup the program was resumed as scheduled.

MUNDELEIN TURNS IT OFF.

Archbishop Mundelein turned the unfortunate incident off happily when he arose to speak.

"While we have seen too many of

the great men here tonight fall and fall by the wayside, it is to be noted that the church and the state (referring to the speaker's table) remained serene. It augurs well for Illinois."

AS HE LEFT THE ROOM A TRAVELER REPORTED

asked the archbishop if the bulletin affected him.

"Not at all, not at all," he laughed.

"You know it takes something stronger than soup to poison."

THE PERSONS MOST SERIOUSLY AFFECTED

were City Librarian Henry E. Legier, who had to be taken to his home, and the Rev. Francis Keenan, secretary to Bishop McDonnell of Brooklyn, who was taken to the residence of the archbishop at State street and North avenue, where he is visiting.

DOCTORS' OFFICIAL STATEMENT

The following statement was issued by the physicians who were present at the banquet and who did rooming service for those made ill by the ptomaine:

Lorimer Seeks Seat in Congress from Old District

"Blond Boss" Petitions Circulated by West Side Friends.

RACE TO BE PUSHED

William Lorimer's candidacy for his former seat in the national house was launched yesterday when his friends in his old congressional district began the circulation of a petition urging his nomination in the April primary.

While there have been reports that Lorimer would run, the circulation of his petition is the first evidence of any action. Lorimer has recently moved his family from the residence in Division road near Duane avenue, back to the old district, and now resides at Washington boulevard and Kedzie avenue.

Back in His Old District.

This removal brings him into the congressional district from which he served in the lower national house so long. The petition for the former congressman is formal and reads:

"I, the undersigned, a legal voter of

the Sixth congressional district, hereby petition that the name of William Lorimer, a duly authorized voter of the said Sixth congressional district, residing at Washington boulevard and Kedzie avenue, be submitted to the voters of the said Sixth district for nomination on the Republican ticket at the next (April) primary held in the city of Chicago, state of Illinois."

It was announced by friends of the

former congressman that the petition will be signed with alacrity within the next few days and made ready for filing.

News to His Son.

"If my father is to be a candidate again he has told me nothing of it," said William Lorimer Jr., last night. "I see him constantly, of course, but he has not talked politics. I had not heard of a petition being circulated, either. It's all news to me."

My father has been living back in the

old district for some time now. He is out on Washington boulevard somewhere. I don't remember the number."

MARSHALL FIELD THIRD INJURED IN POLO GAME.

Went When Thrown from Horse at Alton, Ill., Chicagoan Struck in Game to the Finish.

Alton, Ill., Feb. 10.—(Special.)—

During a polo game played today on the home field of the First Two Polo club, Marshall Field III of Chicago was thrown by his mount and had a narrow escape from serious injury. He pluckily insisted on finishing the game, though he was suffering. Tonight he is resting easily. The report last to the Alton, Ill., 13 to 10 points.

LOST PARK GIRL WEDS WINNER.

Miss Marie Mills, Daughter of "Nickel in the Slot Millionaire," Marries Arizona Workman.

Phoenix, Ariz., Feb. 10.—(Special.)—

Miss Marie Mills, daughter of Harvey "Nickel in the Slot" millionaire, who resides at the old Fairview residence in Oak Park, married William McGrath, a workman in the Ray Consolidated Mining company, yesterday. To all appearances it was an elopement. The priest at the local church refused to marry them, so they went to a justice of the peace. Miss Mills has two aunts in Phoenix, but neither of them was advised of the wedding. The couple will live in a mining camp at Hayden.

BIG SHIP ON FIRE AT SEA.

Your Mastered Schooner Ablaze Off Sandy Hook—Fire Starts Go to Aid.

New York, Feb. 10.—A few masted

schooner, apparently heavily laden, is on fire off Sandy Hook. It is apparent that the vessel's foremast and galley beam are in danger. Coast guards have gone to its assistance.

Paris reports continued successes in the Ardennes. Germans again at Belfort. North claims the capture of large section of French northwest of Vimy.

THE RESIGNATION; THE ACCEPTANCE.

WASHINGTON, D. C., Feb. 10.—(Special.)—Secretary of War Lindley M. Garrison's resignation and the letter of Mr. Wilson accepting it follow:

"War Department, Washington, D. C., Feb. 10, 1916.—My Dear Mr. President: I am just in receipt of yours of Feb. 9. It is evident that we have completely disagreed upon what I conceive to be fundamental principles. This makes manifest the propriety of my longer remaining your acting representative with respect to these matters. I hereby tender my resignation as secretary of war, to take effect at your convenience. "Sincerely yours, "LINDLEY M. GARRISON."

The president's reply follows:

"The White House, Washington, D. C., Feb. 10, 1916.—My Dear Mr. Secretary: I must confess to feeling a very great surprise at your letter of today offering your resignation as secretary of war. There has been no definite action taken yet in either of the matters to which your letter of yesterday referred. The whole matter is under debate, and all the influences that work for clarity and judgment ought to be available at this very time. "But since you have felt obliged to take this action, and since it is evident that your feeling to the matter is very great, indeed, I feel that I would be only imposing a burden upon you should I urge you to reconsider the secretaryship of war while I am endeavoring to find a successor. I ought to relieve you at once, and do hereby accept your resignation because it is so evidently your desire that I should do so. "I cannot take this important step, however, without expressing to you my very warm appreciation of the distinguished service you have rendered as secretary of war, and I am sure that in expressing this appreciation I am only putting into words the judgment of our fellow citizens far and wide. "With sincere regret at the action you have felt constrained to take, "Sincerely yours, "WOODROW WILSON."

BERLIN OPENS WAR ON ARMED MERCHANTMEN

Warns U. S. and Other Neutrals to Keep Off Such Ships of War; Blames Britain.

BY KARL H. VON WIEGAND.
(Copyright, 1916, by Press Publishing Company (New York World).)

BERLIN, Feb. 10.—In the foregoing situation and circumstances, enemy merchant ships which are armed with guns no longer have the right or claim to considerations as peaceful trading ships.

"The German sea forces, therefore, after a short notice, which will take into consideration interests of neutrals, will receive orders to deal with such vessels as with warships. The German government hereby gives neutral powers cognizance of this situation that they may warn their citizens against further intrusting their lives or property to armed merchant ships of the powers at war with Germany."

SUM UP NINETEEN CASES.

With a summing up of nineteen detailed cases, giving the time, place and circumstances of alleged violations of international law by British armed merchant ships firing upon German submarines, and reproducing facsimiles of the secret orders of the British admiralty to attack submarines, these two paragraphs of a memorial to be delivered to the diplomats of the neutral powers and published tomorrow mark what is probably a reopening of the submarine warfare against England in a sharper and more acute form than any yet known.

WILL BE HELD CRIMINALS.

According to the statement of Undersecretary Zimmermann tonight to all the American correspondents, all armed merchant ships will be considered as criminals, on the basis of the alleged violations of international law and the admiralty's secret instructions, laid before the neutral powers.

In effect, the memorial warns neutral powers to keep their citizens and property off such ships; that Germany will assume no responsibility for the loss of life and property on such craft, which, in other words, will be sunk without warning.

It states flatly that Germany will not recognize "armed" merchant ships, but, as a civilian carrying arms in the war zone is liable to summary execution, so guns on a belligerent merchant craft will be considered prima facie evidence that it is an ocean guerrilla.

THIRD PHASE OF SUBMARINE WAR.

This marks the third phase of the submarine war against merchant vessels since Admiral von Tirpitz opened his Pandora's box of troubles in his interview with him in November, 1914, the second being the Lusitania. Washington already has been advised of Germany's proposed action.

Attached to the memorandum are several appendices. The first is the declaration in the house of commons March 26, 1915, of Winston Spencer Churchill, then first lord of the British admiralty. The second refers to the communication of the German government to the British ambassador at Washington to William J. Bryan, then secretary of state, on Aug. 25, 1914, as appearing in the diplomatic correspondence of the state department.

The third appendix is the German declaration of Oct. 13, 1914, regarding the treatment of armed merchantmen. The fourth gives details in nineteen cases, dating from April 11, 1915, to Jan. 17, 1916, in which merchant vessels, mostly unidentified, opened fire on German submarines, specific details being given in each instance.

Six Identified Ships.

Among the identified ships: DEMARARA, British; fired on a submarine while on its way from Lisbon for Liverpool last June. ADMIRAL HAMELIN, French; sunk by a submarine in October of 1915 with a loss of seventy-one lives.

WOODFIELD, British; sunk by a submarine in November after an engagement in the Mediterranean.

LUXIMA, British tanker; said to have attacked a German submarine before being sunk.

CITY OF MARSEILLE, British, reported to have attacked a submarine from which it escaped.

MELANIE, British; said to have attacked a submarine while flying the Dutch flag and said to have been sunk.

The fifth appendix is a photograph reproduction of "Instructions for guidance in the care and maintenance of armament on defensively armed merchant ships," said to have been signed by the British admiralty, dated May 7, 1915, and marked "Confidential."

RESULT OF U. S. NOTE.

Washington, D. C., Feb. 10.—Germany and Austria have formally notified the United States that, beginning March 1, commanders of the "submarine" will consider armed merchant ships of the enemy allies to be warships and will treat them accordingly.

Under such instructions, commanders would be at liberty to sink without warning any armed vessel, whether passenger or freight carrying.

The notifications were presented orally to Secretary Lansing by Count von Bernstorff, the German ambassador, and Baron von Helldorf, chief of the Austrian legation, here. Notes from their governments are to follow.

The intention of the German allies to consider in official and diplomatic circles here to be a development of the situation proposed by the German government which Secretary Lansing recently sent to the neutral powers.

See Victory for U. S. High officials of the state department are expected to consider the development here enough to warrant the claim that the fundamental principle involved in the conduct of submarine warfare has been settled in accordance with the con-

POSTPONED PREPAREDNESS.

FRENCH KEEP UP ARTOIS ADVANCE

Grenade Attacks Beat Back Germans; Belfort Again Target of Teutons.

PARIS, Feb. 10.—The following official communication covering operations on the western front was issued by the war office tonight:

In Artois we continued to make progress by means of grenades in the underground passages to the west of La Fosse. Two German attacks directed against our positions to the west of hill 140 were completely repulsed.

To the north of the road from Neuville to Thennes the Germans exploded a mine, the crater of which we occupied.

To the south of the Somme a detachment of enemy infantry, which attempted to debouch, was driven back to the trenches by our machine guns.

In the region of Beuvrages our artillery destroyed a blockhouse and bombarded the encampments of the enemy.

Terrific Fire in Champagne. In Champagne a destructive drive on the German works in the direction of the Butte du Mesnil gave excellent results.

In the Woëvre we carried out, in the forest of Montmarais, on a salient of the enemy line, a violent bombardment, which caused the explosion of munition depots.

The Germans today fired two more shells of heavy caliber in the direction of Belfort, a violent bombardment, which caused the explosion of munition depots.

WILSON ARGUES FOR TARIFF BODY, MERCHANT FLEET

Says Scientific Board to Fix Levies and Trade Marine Are Chief Needs of the U. S.

Washington, D. C., Feb. 10.—President Wilson told the Chamber of Commerce of the United States tonight that America needed a real scientific tariff board and he thought it was going to get it that it needed a real merchant marine, and that it was absolutely necessary some beginning should be made at once to get that, too.

Of the prospect of keeping the country at peace, Mr. Wilson said that while no immediate international crisis faced the nation, we were merely holding trouble at arm's length. The president's reference to the tariff board and the merchant marine were greeted with tumultuous applause at a dinner closing the organization's annual convention.

See U. S. Firm for Neutrality. "I am not afraid," he said, "of the slow verdict of history with regard to the neutrality of the United States, and I believe we are justified in exercising every degree of patience in clearing what our position is and how sincerely we are determined not to allow this question to become ours in any part. But we are merely holding this trouble at arm's length and trying to keep our judgment cool. All the rest of the world is hot and it may be that the flames will extend to us."

The war, he said, had "thrust America into the economic leadership of the world." There were many instrumentalities, however, which America needed sorely. One of these related to the tariff. "We ought to have a real scientific tariff board, and I think we are going to have it," he said.

Mr. Wilson said that he had changed his mind about the tariff because world affairs had wholly changed during the last fifteen months. His greatest difficulty, he thought, would be in obtaining men for the board who were both capable and impartial. He knew of only one eligible.

Must Have Merchant Marine. "Another instrumentality which I hope we shall make ready to get as soon as possible is a merchant marine," he continued. "We have hopefully expected lately that ships would be built by Americans, but there have been no violent symptoms of that hope being realized. It is absolutely necessary that we should make a beginning in some way."

Government construction or operation of ships had been assumed as revolutionary, the president said. "I am not afraid of any kind of revolution that is useful," he added. "I don't care by what honest process the goods are delivered, but they have got to be delivered. We cannot hold our whole economic life stagnant because we are afraid to try an experiment."

During the day Mr. Wilson adopted resolutions calling on the railroads and their employees to adjust their wage controversy by arbitration, and ratifying a program for national defense which proposed universal military training; an increased navy; and the creation of a council of national defense to mobilize, when needed, all the nation's resources.

HONOR FOR AMERICAN GIRL. Contessa de la Forest Divonne mentioned in French Journal for Bravery Under Fire.

(BY CABLE TO THE CHICAGO TRIBUNE.) PARIS, Feb. 10.—In the last list of the mentioned in the dispatches in the Journal Officiel appears the name of the Contessa de la Forest Divonne, who was Miss Frances Anderson of Washington, D. C. She is mentioned for remaining since the beginning of the war working in a hospital in a town under incessant bombardment, overcoming her own maternal grief and double losses in order to comfort the wounded physically and spiritually.

EXAMINE VON PAPPEN PAPERS. U. S. Officials Find No New Evidence of Violations of American Neutrality.

Washington, D. C., Feb. 10.—Preliminary investigation of Capt. von Pappen's papers at the department of justice has disclosed no new evidence of violations of American neutrality.

The papers, taken from the former German military attaché at Falmouth by British agents, have been transmitted to the department of justice by the state department for examination.

EXAMINE VON PAPPEN PAPERS. U. S. Officials Find No New Evidence of Violations of American Neutrality.

Washington, D. C., Feb. 10.—Preliminary investigation of Capt. von Pappen's papers at the department of justice has disclosed no new evidence of violations of American neutrality.

The papers, taken from the former German military attaché at Falmouth by British agents, have been transmitted to the department of justice by the state department for examination.

GERMAN PAPER DECLARES ZEPPELIN SANK WARSHIPS.

Cologne Gazette Publishes Report Three British Craft Were Victims of Last Raid Over England.

BERLIN, Feb. 10.—(By Wire.)—The Cologne Gazette publishes a report that on the occasion of the last Zeppelin raid over England the cruiser Caroline and the destroyer Eden and Nioh were sunk.

During the day Mr. Wilson adopted resolutions calling on the railroads and their employees to adjust their wage controversy by arbitration, and ratifying a program for national defense which proposed universal military training; an increased navy; and the creation of a council of national defense to mobilize, when needed, all the nation's resources.

HONOR FOR AMERICAN GIRL. Contessa de la Forest Divonne mentioned in French Journal for Bravery Under Fire.

(BY CABLE TO THE CHICAGO TRIBUNE.) PARIS, Feb. 10.—In the last list of the mentioned in the dispatches in the Journal Officiel appears the name of the Contessa de la Forest Divonne, who was Miss Frances Anderson of Washington, D. C. She is mentioned for remaining since the beginning of the war working in a hospital in a town under incessant bombardment, overcoming her own maternal grief and double losses in order to comfort the wounded physically and spiritually.

GERMAN CONSUL AND AIDS HELD

Thirty-three Men Are Indicted in San Francisco in Bomb Plot Cases.

ALL AIMED AT CANADA.

San Francisco, Cal., Feb. 10.—Sixty-one indictments were returned here today in the alleged German bomb and shipping plot cases. Franz Bopp, German consul general; Baron E. H. von Schack, vice consul; Baron George Wilhelm von Brincken, and thirty other individuals and firms were accused.

Mr. Bopp, Baron von Schack, and Baron von Brincken were indicted on a general charge of conspiring to set on foot a military expedition against Canada.

Three indictments were found against Baron von Schack. He and Consul General Bopp were absolved from the necessity of giving bail or bonds. The bonds in the bomb plots were fixed at \$2500 each and \$1,000 each in the shipping indictments. No arrests were made tonight.

Twenty-six other individuals and firms were indicted in the alleged shipping plots, charged with conspiracy to violate the neutrality of the United States in various ways by furnishing supplies to German warships from San Francisco.

The conspiracy was alleged to have contemplated the destruction of all railroads in Canada.

RICH CHICAGOAN SHOT BY COLUMBIAN EMPLOYEE.

Dr. George F. Rider of Barb Wire Company May Not Survive Pistol Wound in Leadville, Colo.

George F. Rider, former official of the American Steel and Wire company and now head of the Rider-Vandewater Barb Wire company, was shot and probably fatally wounded near Leadville, Colo., according to a report to his home in Wilmette yesterday.

E. H. Sackett, a contractor, of Telluride, Colo., has been arrested and is being held for the shooting.

Rider, who at one time was a practicing physician, was on a business trip to Colorado, where he has mining interests. He is a heavy stockholder in the Twin Lakes Mining and Milling company, which owns and operates the Gordon-Tiger mine, near Leadville.

On Wednesday night Rider and Sackett were discussing the settlement for some work Sackett had done for the mine company. In the course of the argument Rider was shot.

The shooting took place in the hotel at Twin Lakes. Sheriff Schneider of Leadville was notified at once and he started for the mining camp.

DUPES BUYERS OF STOCKS: FLEES WITH BIG PROFITS.

Made on New York Firm Reveals Installation Plan Scheme—Promoter Believed on Ocean.

NEW YORK, Feb. 10.—(Special.)—A clever scheme to obtain money from prospective stock purchasers was uncovered today by postoffice inspectors who raided the office of John H. Putnam & Co., at 68 Broadway, in the heart of the financial district. There they found evidence that the firm had made profits estimated at about between \$300,000 and \$400,000 through assisting promoters and brokers in obtaining the purchase of stocks on their installment plan.

Officials believe that Putnam, who started the business two months ago, is aboard the liner Baltic, which sailed for Europe.

Putnam sent out circulars outlining his plan for purchasing Ohio Oil stock. He informed patrons that in a year they would reap \$1,700 on a \$3,500 investment. The raid followed complaints of patrons who had paid for stock and failed to receive certificates.

ALDERMEN GET NEW PROPOSAL FOR GAS RATES

Insult Offer Appears Unsatisfactory to Some Members of the Committee.

Samuel Insull, representing the Peoples Gas Light and Coke company, put into effect yesterday his recent offer to lower the price of gas if the city will substitute for its present candle power standard a standard based on heating power.

In a letter to Chairman Lewis D. Sills of the council committee on gas, oil, and electric light, he presented the scale of charges he said will be put into effect if the company is permitted to substitute gas for the water gas it is now supplying. So far as the small consumer is concerned the offer spelled a reduction ranging from 2 cents below the price now charged to 8 cents below the present price in 1915 and 1916.

Some of the members of the council committee who read the terms of the offer declared at first blush that it was unsatisfactory. Some pointed out that the rate authorized by the ordinance now in effect is lower than the terms for 1915-16 cents—and the present supply is required to have a 22 candle power illuminating value.

Here is the offer:

Mr. Insull's offer was contained in the following paragraphs from his letter:

"The company proposes to put into effect a schedule of rates (per month) for gas up to and including the year 1920, as indicated in the following table:

First 25,000 feet 75c	75c	75c	75c	75c	75c
Second 25,000 feet 75c	75c	75c	75c	75c	75c
All over 50,000 ft. 75c	75c	75c	75c	75c	75c
Minimum bill...	75c	75c	75c	75c	75c

"The requirement of a minimum bill is in line with the modern practice of utility commissions. The company is prepared to demonstrate the propriety and fairness of such a requirement.

"The method of charging for gas heretofore followed has militated against its use for manufacturing and industrial purposes, and has consequently tended to restrict the sales that the public has not derived the benefit in reduced cost in all gas sold that it has come with an increased average consumption per customer.

Cost to Large Users.

"It is, therefore, desired to develop the use of gas for manufacturing and industrial purposes, and to that end a schedule of rates for users of large quantities has been prepared, as follows:

OPTIONAL RATE TO CONSUMERS	Monthly readiness to serve—charge.
100 light meter or less...	\$12
150 light meter or less...	\$15
200 light meter or less...	\$18
250 light meter or less...	\$21
300 light meter or less...	\$24
350 light meter or less...	\$27
400 light meter or less...	\$30
450 light meter or less...	\$33
500 light meter or less...	\$36
Larger sizes...	\$40

With a charge of 50 cents per thousand feet for first 25,000 feet in any month and with a charge of 10 cents per thousand feet for all over 25,000 feet in any month.

Mr. Insull also said that in the event of approval being given by the city and the public utility commission, his company will proceed to build a \$12,000,000 coal gas plant on the drainage canal that would start producing gas in three years, and in five years would manufacture most of the company's supply.

Views of Aldermen.

Statements by members of the committee on gas, oil, and electric light follow:

Ald. James E. Lawrence, chairman of the special committee on gas legislation, said his experience has convinced him we should not establish any rate except by scientific methods. We must have the new inventory completed before we do anything.

Ald. Henry P. Morgan—Don't see how the city can consider agreeing to a rate that is higher for the next five years than the rate now allowed by the ordinance.

Ald. Robert M. Beck—If I were the chairman I wouldn't be in any rush to call a meeting of the committee to consider such an order. I am convinced the company can sell its gas at a much lower price and still make a profit.

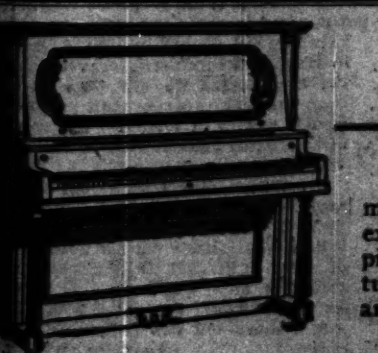

Ald. C. E. Newman—I have not had an opportunity to examine the proposal carefully and cannot express any final opinion on it. As I understand it, however, it seems that the only material reduction provided is given the very big users of gas.

Ald. James A. Keane—It seems to me the gas company would be the beneficiary instead of the consumers. It has been stated by good authorities that the best gas can be manufactured and sold for 50 cents. Before accepting the new rate I believe an expert on gas should carefully consider and investigate the figures and report to the council.

Lower Dividend Seen.

Mr. Insull discussed the proposal at the annual meeting of the company's stockholders yesterday.

In answer to a question he said that the dividend rate probably will be reduced in the spring from an 8 per cent basis to a 6 per cent basis.

SHE MAY LOSE HUSBAND

New Troubles for Mrs. Herbert Updike in Annulment Proceedings.

MRS. HERBERT UPDIKE (NELLYE DE ONSONNE.)

Nellye De Osonne, "the woman in the case," in the Updike annulment proceedings, yesterday was sued for an annulment of her marriage to Herbert Updike, on the ground that she al-

ready had a husband when she married him. The suit was filed by F. W. D. Updike of Oak Park, Herbert's father.

"PIKE'S BUDGET WORST CITY EVER HAD," ALDERMAN SAYS.

Controller Comes In for Severe Censure When He Chides Committee for Delay.

City Controller Eugene R. Pike yesterday came in for the severest censure he yet has received from the finance committee. He was charged with preparing the "worst budget the city ever had," and then "passing the buck" to the finance committee. The occasion was a letter from Mr. Pike declaring the city is "broke" because of the delay in passing the 1916 budget, and advised the committee to "speed up." He asserted he would have to hold up the city for the 15,000 employees for the last half of February unless the budget is passed immediately. City Treasurer Fergal Kelly contradicted him.

"The pay roll for the year of the month will amount to about \$800,000," Mr. Kelly said. "We have \$1,100,000 in the corporate fund, and there is more money to be received."

When Mr. Pike's letter was read the committee proceeded to make caustic comments.

"It is the worst budget ever put out by a controller," declared Ald. Harry L. Holt. "At least the other controllers told us the true condition; this fellow conceals the facts."

IT'S A TOUGH JOB SLEUTHING ON A DAUGHTER'S SUTOR.

Author-Detective Woodridge Lays His Troubles to Damaging This Fellow Johnson.

Clifton R. Woodridge, once really a detective and now a real detective, is going to move. He says he is his former wife says he is, his daughter says he is, and so does Judge Rooney. Woodridge, who is an extensive author, composing his own exploits, declared last night that he read his own works, so loudly, as to disturb the other boarders in the house of his divorced wife at 421 East Forty-second place.

"The trouble was over this fellow Johnson," said the detective. "He is keeping company with my daughter. His name isn't Johnson at all. His name is Andrew W. Hilde and he is a wife and two children. Then he came to live in the house. He gives my daughter presents and their engagement is announced. I got mad and throw him out and my daughter has me arrested. It's awful. Then she tells me she knew he was married all the time, but he's going to get a divorce."

Judge Rooney in the Hyde Park court told Woodridge he could have "until March 1" to move out. The fact that he is paying alimony doesn't, on any fee, or words to that effect, said the judge.

ALDERMEN PUT IN CAFE DILEMMA BY ETTELSON

To Shut Off Drinks at 1 Would Close Restaurants on Sunday!

When Corporation Counsel Ettelson ruled "wet" restaurants need not close their doors at 1 o'clock he put a large number of aldermen in a hole. They are doing their best to figure a way out of it. In his opinion to Chief Healey Mr. Ettelson said, in effect:

"Don't blame me for this situation. Blame the council. If the doors of the restaurants ought to be closed at 1 o'clock it is up to the council to pass an ordinance."

Several aldermen at once said the necessary ordinance would be presented and predicted its passage. Then they began to think and their thoughts ran something like this:

"If we put 'wet' restaurants in the same class with saloons they will have to close on Sunday, and nobody wants to close all the big downtown restaurants on Sunday."

Here's the way out. There they stuck for a time; but now they believe they have found the way out. They say:

"It is not necessary for us to touch the saloon ordinance in any way. All we need to do is to amend the ordinance covering the licensing of restaurants. To that ordinance we can add a proviso like this:

"That not only would compel the restaurant to close its doors but it would compel the patrons to disperse promptly at 1 o'clock. This would avoid the problem of what amount of liquor is a 'reasonable' amount, such as the corporation counsel says can be consumed after 1 o'clock if purchased and served before that hour. And it would not bring the restaurants within the provisions of the Sunday closing law as construed by the corporation counsel."

Uptal Wants Action.

Ald. John T. Uptal, chief leader of the "wets," is out of the city, but Ald. Henry Uptal says the council should act.

"I am sure," he said, "that some ordinance to maintain conditions as we have had them in the past will be approved by the council, but what the ordinance will be remains to be seen. There is no reason why the thousands of saloons should be compelled to drive their patrons out at 1 o'clock while the restaurants—and that means the big downtown restaurants—most exclusively be permitted to allow their patrons to sit and drink after that hour. That would be discrimination in favor of the big fellow and against the little fellow."

Inquiry on Miller.

Corporation Counsel Ettelson said that it was the duty of his department to prepare any ordinance requested by the council, but he refused to indicate what form of ordinance he would draw if the subject were left entirely to him.

Mr. Miller's several thousand word statement on the subject brought an order from Judge Uhlir in the Morla court that a copy of the document be presented to him.

"In it there are instructions against this court," he said, "and I want to examine it carefully to see if the city prosecutor is in contempt of court."

Mayor Closes Three Saloons.

Although there was not what Mr. Miller classifies as "hard samples" in any of the cases, Mayor Thompson closed three saloons for violation of the Sunday closing law—Joseph Puck, 235 South Kedzie avenue; Michael Bernbach, 1844 North Mobile avenue; Leo C. Frank, 4970 Milwaukee avenue.

DOZEN INJURED AS TRAIN OVERTURNS TROLLEY CAR.

Confusion of Signals Causes Crossing Crash at South Ashland Avenue and Pennsylvania Tracks.

A dozen persons were injured late yesterday when an Ashland avenue car on which they were riding was struck and overturned by an east-bound Pennsylvania railroad freight train at South Ashland avenue and West Fifty-ninth street. The car came to a stop at the crossing and, according to the motorman and conductor, they were given signals by the railroad flagman to proceed. The railroad flagman denies this and told the police that he gave the signal to the car crew to wait until the freight train passed. Among the injured are: Mrs. Margaret C. Smith, 623 South Artesian avenue; Mrs. James Hines, 4425 South Paulina street; Mrs. Josie Wriggle of 1000 West Sixty-first street; Mrs. Minnie Meyer of 1241 South Ashland avenue; Mrs. Susan Fleming of 3229 Roosevelt street; Mrs. Julia O'Toole of 2027 West Sixty-eighth street; and Mrs. A. Reich of 5617 South Artesian avenue.

SINKS SPURNING LIFE LINE.

Harry Mohler, After Leap from Bridge, Ignames Bops and Waves Good-Bye.

With a laugh at the life line and a wave of his hand at the men who threw it from the Grand avenue bridge, from which he had jumped, Harry Mohler, who lived at 1214 North Claremont avenue, let himself and his troubles sink in the Chicago river yesterday. Mohler leaped from the Grand avenue bridge.

LODGE MEMBERS FLEE FIRE.

Many Have Narrow Escapes When Three Buildings Are Burned in Marion, Ill.

Marion, Ill., Feb. 10.—[Special.]—Fire tonight destroyed the First National Bank building, the D. T. Hartwell building, and the C. W. Hay building, causing a loss of \$100,000. Many persons who were attending a lodge meeting had narrow escapes.

BUDGET MAKERS GIVE FUNKHOUSER AMOUNT HE ASKS

Morals Division Head Tells of Handicaps in War on Vice.

The city administration's plan to reduce the morals inspection division of Second Deputy Funkhouser's office was blocked last night when the council finance committee voted to boost the appropriation for this purpose from \$24,000 to \$30,000. The latter figure was the amount originally asked for by Maj. Funkhouser. He was asked in last night to give his reasons, but he was barred from speaking in behalf of his request.

"I am instructed by the general superintendent of police," he said, "to say that City Controller Pike does not want this item voted."

Throughout the session Maj. Funkhouser confined himself to a recital of facts in answer to questions from members of the committee. He testified under protest.

Unanimous Against Pike.

The unanimous verdict was to override Mr. Pike. The committee also decided to insert a stipulation that the money should be spent under the sole supervision of Maj. Funkhouser. Many of the aldermen gained the impression that some of the investigators were put to work on orders emanating from the city administration. Since the present administration came into office, the committee learned, the number of morals inspectors has been reduced from a former maximum of twenty

to seven. Expense accounts have been limited to \$1.00 a day by Controller Pike. Several civil suits have been reported over and over again and no action has been taken. It was disclosed, moreover, the limitation on expenses has prevented the investigation of scores of vicious apartments.

Handicapped on "Call" Plans.

"We don't touch the most pernicious of all evils—the buffet flats," said Maj. Funkhouser. "They are 'call' places where young girls are sent for by the madame. Some of these girls are photographers who work in town during the day."

"Why don't you investigate them?" asked Ald. Willis O. Nantz, who took the lead in boosting the morals inspection appropriation.

"Because it is too expensive," was the reply. "In some of these resorts it would cost you \$5 to sit down and talk fifteen minutes."

In response to another question Maj. Funkhouser estimated there are 100 or more buffet flats in Chicago. He thought it would require at least \$3 a night for the inspector to get evidence against them.

"Why don't the police close them?" continued Ald. Nantz.

Recalls Order to Captains.

"The chief said he would hold all capital responsible," remarked Ald. Otto Kerner. "Why not prefer charges against the captain?"

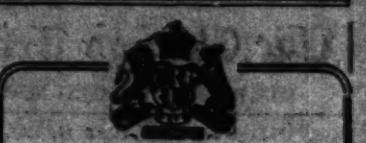

"That is not my duty," replied Maj. Funkhouser.

The second deputy said he sends his reports directly to Chief Healey, explaining his office has done no raiding since 1914.

Cites One Case.

"Did any of your men ever spend as much as \$10 a day?" asked Ald. Nantz, referring indirectly to Mayor Thompson's statement the money was used to "pick up" women on the street.

"There were a few cases," Maj. Funkhouser said, "one in particular, where we tried to get a girl back to her parents. I want to say emphatically that there never was a dollar of our funds spent for immoral purposes. But as it stands now, we can only investigate the street business and the less expensive places. We have figured it would cost from \$3.00 to \$7.00 to investigate the Fox Trot club. We have spent our own money to prove it."

"It is correct if it bears a Shayne label."

FRIDAY, FEBRUARY 11, 1916.

"Our Country! In her intercourse with

foreign nations she always be in the

right; but our country, right or wrong."

—Stephen Decatur.

HUGHES NOT A CANDIDATE.

Associate Justice Hughes of the Supreme court

is to be congratulated upon his statement that he

is ignorant of any attempt to bring his name for-

ward as a candidate for the Republican nomination

for president and that he is opposed to the use

of his name in this connection.

Irrespective of whatever qualities Justice Hughes

may have for the presidency, it would be an un-

fortunate precedent if a member of the Supreme

court were found willing to have such a candidacy

advanced. Public policy would be seriously injured

thereby.

Furthermore as to Mr. Hughes' ideas upon all

matters most importantly connected with the pre-

siding the public is uninformed, and so long as

propriety is consulted must be unimpaired. No

voter in presidential primaries and no delegate in

the national convention could vote intelligently upon

Mr. Hughes' name, because, in this critical time

when the candidate's thought and policies ought to be

fully understood, Mr. Hughes cannot make his

known.

We know and can know less of what Justice

Hughes is thinking upon questions which must be

thought out and understood than we know or can

know of any other candidate mentioned.

His decision not to be a candidate must be ap-

plauded.

AN UNDESIRABLE SIMPLIFICATION OF

OUR CITY GOVERNMENT.

Some one of Big Bill's candid friends really

ought to lead him off into a quiet corner and explain

things to him. Big Bill is probably sincere in his

belief that he has no reason to attack him except

for political reasons. And when the Municipal

Vote is taken along with an election of a city

commissioner, he thinks that it is only the crowd

trying to get in. All mayors pretend to think that

way, and we suppose his present honor really thinks

it.

But he misses the point. He answers that as long

as the people have confidence in William Hale

Thompson, William Hale Thompson will continue

to fight for the people, for property, and for all

manner of good things. His bed is of thorns and

his cup of gall, but he will be faithful to his trust.

Now, the people are more than willing to trust

Big Bill Thompson in duties which they elected

him to perform. He is big and persuasive and they

know he means what he says. They want him to be

as executive as he can be in his administration of the

business of the present city council and of other

former city councils. But he has turned out to be

too big and too persuasive. He has tried desperately

to persuade the council chamber. He has absorbed

the legislative function and the administrative func-

tion as far as he could. He has turned out to be a

veritable demand for responsibility.

Trusting as the people are, they do not care to

see him shirk the city council. This reservation

of power to themselves he cannot understand. He

acts on the theory that as long as he is mayor he

is the city, or that the city is him (ha). And he

does not see why he should not club the council into

submission when it opposes the property which

will inevitably follow his dictatorship.

We feel that the city council ought to be pre-

served thinking majority. It is respected because

it is the voice of the people and represents their

experience and best judgment.

We never try to cheat. We are law abiding.

It is reported from Washington that the present

disposition of the military affairs committee of the

house is to increase expenditure upon the national

guard, empower the president to draft it into the

federal service in case of war, and increase the

regular army according to the recommendation of

the war department (not that of the general staff).

If this is done, it will be a consistent addition to

the monument of blundering and inefficiency which

is the long and disgraceful record of congress' deal-

ing with defense. It will increase public expendi-

ture without any real increase of defense. It will

give the impression of something having been done

which will induce congress' habit of spending public

money. It will condone national guard opinion,

perhaps, and in some instances at least it will be

a political asset for congressmen attentive to the

condition of their flocks. It will not put the

country in a state of adequate defense. It will

provide nothing to justify the cost.

The increase of the regular army recommended

by the war department is negligible. We now have

approximately 85,000 mobile troops within the

continental limits of the United States, a home guard

of 60,000. The general staff figure on the ability

of foreign nations to land a first expeditionary

force on our shore, the fleet being defeated or shut

up, show in important instances from double to

seven times this force.

The national guard now has a paper strength of

125,000 partially trained men. The most competent

and candid opinion in the guard itself con-

siders its usefulness for immediate service. Empow-

ering the president to draft it in case of war in

no way affects the conditions from which this useless

force proceeds.

In other words, the committee on military affairs

of the house still seems to be dominated by the

fallacies of Chairman Hay, and proposes, in spite

of the great demand throughout the country for a

real defense against initial invasion of our home

soil, to give us nothing substantially better than

we have now.

The thought which actuates such a compromise

is familiar, but it is no longer general in the

country. But this compromise, which is not compromise,

but defeat, will prevail if public opinion does not

at once assert itself. The house committee on

Wednesday heard from the pacifists. It is time it

heard from Americans who wish the nation to be

defended by something more substantial than

theories.

There is but one way in which we can make

our land secure against aggression. That is to

recognize the citizen duty of defense service. But

if we are to try to buy or hire our defense with

money or until we are ready to accept our citizen

duty, let us at least buy enough professional

defenders to withstand the first shock of battle.

Despite pennywise congressmen the nation is able

and willing to pay for such defense as it can buy

with money. Taxpayers believe that if the

nation is not misled by false prophets it will pay

also ungrudgingly in service.

THE PUBLIC AND THE RAILROAD

STRIKE.

A general strike of railroad employees is scheduled

for the spring. It is a strike which is as im-

portant as any railroad strike in the history of the

country, and without any pretext or indeed any effective

means of getting on.

The main outlines of the strike are clear enough.

Three unions, the strongest in the country, want

certain things which they hope to force the railroads

to give them. Perhaps the railroads can afford to

yield without increasing freight or passenger rates;

perhaps they cannot. The employees show no enthusiasm

over arbitration, and no way of compelling

arbitration has been devised.

Under our present apocryphal scheme the public

will have to let them fight it out if they are deter-

mined to do so. The public's loss will probably be

stepped on severely in the struggle. But the public

can say nothing.

The questions which will not be considered in re-

lation to the proposed strike and which ought to be

A LINE O' TYPE OR TWO.

Motto: How to the Line, but

the quips fall where they may.

FEB.

More and more is Feb a bore.

Heaven be praised, but nineteen more!

THE continental army plan has the appearance

of being dead. Does anybody care a continental

arm?

MR. HUGHES declares he is entirely out of

politics and totally opposed to the use of his

name. This was utterly to be expected and is

completely, not to say wholly, satisfactory.

"WHAT I mean is," says Old Abe Miller of the

Washington, D. C., Democrat, "Wilson's speech

reads like an epic." How do you mean "epic,"

old top?

Both Spic and Veece are two.

Sir: The East is in the grip of an epidemic of

vires libris. Even the signs furnished by the

Douglas Co. at public warehouses, directing one

to gain its fullest efficiency and most agreeable

results, read as follows:

"First wet left hand.

Turn handle to right once.

Mix water freely with the soap.

While rubbing into lather

Between the palms."

L. V. R.

JUDGE McDONALD expresses the judicial opinion

that "a glass of beer occasionally before going

to bed" does not constitute drinking to excess;

and provided the "occasionally" means a. d. r.

or so, and not occasionally throughout the day

until the hour of retiring, we concur with the

bench.

THE occasional glass is all that Mississippi can

look forward to. A bill that passed the legisla-

ture yesterday limits the shipments of booze to

one person to one quart of whiskey and twenty-

four pints of beer each fifteen days. Could you

worry along on that?

WHY NOT SODOM?

[From the Ancestral Record.]

Allen Campbell, the Southern collector, received his

beats and made his first trip to Arthur Sunday.

If you can detach your mind from the resignation

of Mr. Garrison you may become absorbed in the

fact that Mrs. Bird is the choir leader in a

Concordia, Kan., church. Or, tastes vary so, you

may be more interested in the information that

Miss Voice is clerk of the village of Empira.

Mich. Or, like yourself, you may be bored rigid.

Stage Illusions.

Sir: It might interest an Old Operator to know

that Mr. Gillette DID have a real operator on the

stage at one time. The story goes that on an ex-

tremely hot night the operator clicked off what he

thought of a manager who would compel a

man to work as hard in the heat as he would in

the shade, a lady, left the theater, com-

plaining to the management. This may explain

the delay.

Sir: Speaking of plausibility in melodrama,

have you seen Taylor Holmes operate his type-

writer in "Bunker Bean"? After hitting the B

four or five times he goes next door and tanta-

lizes the R a while. If I were a business college

scholar his name would be at the head of my list.

STENOGRAPHERS.

SPEAKING about 8-hour workdays, a reader is

reminded of the remark of his colored porter:

"The boss gets paid for what he knows, not for

what he does." Or, in some cases not to be per-

sonal—for what he succeeds in making people be-

lieve he knows.

THE indispensable W. G. N. refers to "Welles-

ley's" "Did you raise your son to be a stu-

dent at Wellesley?"

THE SECOND PLOT.

[Divided by a Chicago Item.]

Sentiment on Oct. 1915 I had at least five men for suits,

which I would have sent in the last two or three days.

Our town took the steamship the night of the 18th of Octo-

ber. The woman to whom I was engaged, but with whom

I had trouble a short time before, told me that she

had come to the city. I went to the office, but she

was not there. I went to the hotel, but she was not

there. I went to the office, but she was not there.

I went to the hotel, but she was not there.

How to Keep Well.

By Dr. W. A. Evans.

Questions pertaining to hygiene, sanitation, and prevention of disease, if

not of general interest, will be answered in this column. Where space will

not permit or the subject is not suitable, letters will be personally answered, and

sent to proper authorities and where a stamped, addressed envelope is enclosed.

Dr. Evans will not make diagnosis or prescribe for individual diseases. Requests

for such service cannot be answered.

HUGHES' STAND PUTS ROOSEVELT TO FORE IN G. O. P.

"Colonel Against Field," View of Republicans; Some Hope Justice Will Relent.

Washington, D. C., Feb. 10.—[Special.]—The letter of Justice Hughes eliminating himself from the Republican presidential primary campaign, and repudiating any chance for delegates in his behalf has set the political hot boiling.

"It is now Roosevelt against the field," the Roosevelt Republicans say, and many of the anti-Roosevelt Republicans of 1912 are now saying that with Hughes out of the primary, the only man available to the grand old party.

There is no mistaking the fact that Hughes' self-elimination from the primary campaign has sent Roosevelt down the line. For whereas Roosevelt leaders have been admitting for several months that the field of candidates is over-shadowed by the towering figure of Hughes and Roosevelt, there is now but one name left—Roosevelt—out of the possible column of Oyster Bay.

It is evident, however, that it will take some more explicit declaration than the justice's letter to Congressmen to stamp out the Hughes fever. They contend that his assertion that he is out of politics and averse to the solicitation of support for the nomination merely accentuates the desirability of calling a man of such high-mindedness and distinction to the leadership of the party.

"Hughes will never be out of the race until he says he won't accept the nomination," said a Republican senator. "Also, in my opinion, if he does not make such a statement, he will be nominated by the convention."

SPRINGFIELD IS FLOODED WITH POLITICAL PETITIONS

Names of National Delegates at Large to Rotate if Secretary Stevenson's Ruling Holds.

Springfield, Ill., Feb. 10.—[Special.]—National, state, and Cook county politics went into the air tonight with the arrival of a flood of petitions to be filed with Secretary of State Stevenson, that some of the politicians could arrange, factually, representatives are in Springfield of every element, Republican and Democratic.

Secretary Stevenson holds that the same of national delegates-at-large shall rotate. This is in conformity with the decision of Atty. Gen. Lucy. Under this rule there is a definite movement underway to get an opposing committee of the primary law before the state supreme court tomorrow the rotation theory will stand. This goes also for the right of some to vote for presidential electors in Cook county, where the election board of Chicago and County Clerk Swisher have ruled that women have such right.

RECLUSE DIES OF POISON.

Mrs. Eva M. Roberts, aged 88, was found dead in bed at the home of her cousin, Mrs. Martha J. Roberts, in Kankakee yesterday. An empty vial which had contained twenty-two ounces of an opiate was found in the bed. A forty-year-old son of Mrs. Roberts, who was only recently forgotten when she was in the home of her uncle, Julius Roberts, 219 South Broadway, was made her heir there until last Monday, when she went to Kankakee.

FOR SUFFRAGE

Organizer of Congressional Union Who Opposes Headmasters Here Today.

Miss Kate Hill, organizer for the Congressional Union for Women Suffrage, has opened headquarters in the La Salle hotel for the campaign to have the Susan B. Anthony suffrage amendment passed by congress.

"Congress will never get rid of that bill until it is passed," said Miss Hill. "The importance of the campaign in Chicago and Illinois centers around Congressman at Large William H. Williams, who is a member of the house judiciary committee, which we are hoping will report the amendment out of the committee soon. There are more than 400 members here and I believe a vigorous campaign will produce Congressmen Williams' aid."

"On Feb. 20 we will hold a big mass meeting in the ballroom of the Hotel La Salle, at which Mrs. Sara Bard Field, Miss Doris Stevens, and so on, will take charge of the festival, which probably will be held on Saturday."

Mr. Reynolds and his wife separated some time ago. She is living in California.

Chicago Banker Not Told.

Los Angeles, Cal., Feb. 10.—George M. Reynolds, the Chicago financier, who has been seriously ill here, was not told today of the death yesterday of his brother, M. M. Reynolds, at Panama, Ia.

Mr. Reynolds will remain here with his family several weeks.

M. REYNOLDS, IOWA BANKER, IS A SUICIDE BY SHOOTING.

Brother of Chicago Financier, Strangled from Wife, Kills Self at Home in Panama.

Panama, Ia., Feb. 10.—M. M. Reynolds, aged 57, president of the Guthrie County National bank, and a brother of George M. Reynolds, the Chicago financier, who has been ill at Los Angeles, is dead at his home here, having committed suicide by shooting last yesterday.

His health and dependency was given as the cause. Arthur Reynolds of Chicago, a brother, arrived this morning and will take charge of the funeral, which probably will be held on Saturday.

Mr. Reynolds and his wife separated some time ago. She is living in California.

Chicago Banker Not Told.

Los Angeles, Cal., Feb. 10.—George M. Reynolds, the Chicago financier, who has been seriously ill here, was not told today of the death yesterday of his brother, M. M. Reynolds, at Panama, Ia.

Mr. Reynolds will remain here with his family several weeks.

HURT IN LOOP BUILDING.

Carpenter Repairing Skylight Falls from Sixteenth to Ninth Floor.

Michael Harvath of 3702 Parnell avenue, a carpenter, was seriously injured yesterday in a fall from the ninth to the sixth floor of A. C. McClurg & Co.'s building at 218 South Wabash avenue while repairing the skylight.

THOMPSON AND SULLIVAN CLANS FINISH SLATES

Pick Their Candidates for Ward Committeemen and Mail Petitions.

The Thompson and Sullivan factions of the Republican and Democratic parties last night completed their slate of candidates for ward committeemen and mail petitions.

They were dumped into the mail box at midnight and will be among the first envelopes to reach the office of County Clerk Swisher this morning.

Mr. Swisher has the sole say as to the position of the names on the official ballot.

INCENDIARY SCHOOL FIRE ENDANGERS 1,800 LIVES.

Engineer and Fireman at Irving School Avert Tragedy When They Quench Flame in Gymnasium.

While 1,800 school children were busy with reading, writing, and arithmetic, Charles Driscoll, engineer of the Irving school, 2140 West Lexington street, and Frank Kelly, his fireman, were putting out an incendiary blaze in the gymnasium at the school.

The fire was started when Driscoll, who was in the gymnasium, was in flames and a stage curtain had been destroyed. A fire extinguisher in the room was put into action and Kelly carried pails of water from the boiler room.

After five minutes' work the blaze was out. The fire department was not called. The children did not know what had happened. A milk bottle which had been filled with kerosene was found standing at the edge of the stage. No one had been seen to enter or leave the gymnasium.

Four large electric lamps had been stolen from the basement earlier in the morning. Two boys, who were doing the mischief about two weeks ago after other lamps had been stolen, are suspected of starting the fire.

CHURCH GREETED NEWPASTOR

The Rev. James M. Littlel Welcomed by Clergyman and Laity.

A reception was given last evening to the Rev. James M. Littlel, who last Sunday began his pastorate at the Third United Presbyterian church, Forty-third street and Evans avenue. Addresses of welcome were given by the Rev. J. W. Harsh, the Rev. W. C. Overt, and the Rev. M. H. Russell, John A. Kierpatrick, Mr. William Mason, C. M. Elder, Carrie V. Platt, and Mildred Taylor, representing the various church organizations, also spoke. Dr. Littlel served a pastorate of twenty-two years in Wheeling, W. Va., before coming to Chicago.

DEFEAT PUBLIC DEBATE ON NICARAGUAN TREATY.

Senate Votes Down Proposal, with Minimum Fencing in—Treaty May Come Out Later.

BY A STAFF CORRESPONDENT.

Washington, D. C., Feb. 10.—[Special.]—Modern senators voted today to open the doors and discuss the Nicaraguan treaty in public. The motion to have the debate proceed in open session was made by Senator Borah of Idaho. It was lost by a negative vote of 42.

It is expected that the treaty will be ratified tomorrow. The senate spent the entire day behind closed doors discussing the motion of Senator Borah to open the doors. Senator Stone, chairman of the foreign relations committee, was the principal speaker. He appealed to senators in a speech of nearly two hours to preserve the secrecy of the senate in debating diplomatic matters.

The substance of the treaty will be discussed in open session when the appropriation of \$500,000, representing the payment to be made to Nicaragua, comes up on the general appropriation bill. Several senators gave notice today that under the conditions that will surround that legislation the facts will be given to the public.

CHARGE OF 'PULL' IN DORSEY CASE STIRS UP CLYNE

Seeks Source of Article Hinting Delay in Fraud Trial of Cattle King.

District Attorney Charles F. Clyne began an investigation yesterday to discover the source of charges made in the Prairie Farmer, an agricultural paper, that political influence is being exerted to delay and possibly prevent the prosecution of James Dorsey of Gilbert, Ill., the Kane county cattle king.

Dorsey is under indictment charged with using the mails to defraud farmers by selling them cattle infected with tuberculosis. The indictment has been pending since Sept. 26, 1915. Dorsey has not yet been arraigned, because his attorney, William S. Forrest, yesterday filed a demurrer to the indictment before Judge Landis and the hearing was set for Feb. 17.

The article states that farmers in Minnesota, South Dakota, and Missouri, among them three of the complainants against Dorsey, are circulating petitions addressed to President Wilson.

The farmers, according to the journal, ask that the president appoint a special prosecutor to handle the Dorsey case because of Mr. Clyne's alleged personal animosity for Dorsey's lawyers, one of whom is Glen S. Hummer.

Mr. Clyne summoned R. D. Butler, publisher, and Clifford V. Gregory, editor of the Prairie Farmer, to his office and read them the hot article.

"I showed them their article in context in every essential particular," Mr. Clyne said. "The charge of political influence is absurd. The case was reported to me in August, 1915, and the indictment was returned with the coming of the first grand jury after that—in September. There has been no unnecessary delay."

As to the supposed animosity for Mr. Dorsey's lawyers, he said: "I am a Republican. I know him merely to say 'hello' to him."

"We will trace the source of the charges with a view to fixing responsibility."

RIVERVIEW AGAIN IN COURT.

Robert A. Smith Asks Accounting of Income of Certain Mining Devices.

Riverview park's tangled affairs became the subject of another item of litigation yesterday when Robert A. Smith filed a suit against William F. Moore asking for an accounting of the income of certain of the riding devices, the amount being estimated in the petition at \$25,000.

Moore is charged with fraudulently transferring stock in two construction companies to his personal account and juggling concession contracts valued at \$10,000.

Disc Before Judge.

Moore, residing at 400 South Dearborn street, came here yesterday morning to answer the suit. He was told to appear in court at 10 o'clock.

ACCUSE MOTHER IN ABORTION

Physician and Parent Are Charged with Performing Illegal Operation.

Dr. E. L. Deaton, 11 West Garfield boulevard, and Mrs. Anna Williams, 877 South Taylor avenue, Oak Park, were booked at the Shakespearean station last night for performing an abortion on Anna Williams, 17 years old, daughter of Mrs. Williams. They were both released on bonds of \$500.

The girl became ill while visiting Mrs. Deaton, 2944 North Wolcott street. She had been performing the operation. The girl was taken to the station and booked.

CHARGE OF 'PULL' IN DORSEY CASE STIRS UP CLYNE

Seeks Source of Article Hinting Delay in Fraud Trial of Cattle King.

District Attorney Charles F. Clyne began an investigation yesterday to discover the source of charges made in the Prairie Farmer, an agricultural paper, that political influence is being exerted to delay and possibly prevent the prosecution of James Dorsey of Gilbert, Ill., the Kane county cattle king.

Dorsey is under indictment charged with using the mails to defraud farmers by selling them cattle infected with tuberculosis. The indictment has been pending since Sept. 26, 1915. Dorsey has not yet been arraigned, because his attorney, William S. Forrest, yesterday filed a demurrer to the indictment before Judge Landis and the hearing was set for Feb. 17.

The article states that farmers in Minnesota, South Dakota, and Missouri, among them three of the complainants against Dorsey, are circulating petitions addressed to President Wilson.

The farmers, according to the journal, ask that the president appoint a special prosecutor to handle the Dorsey case because of Mr. Clyne's alleged personal animosity for Dorsey's lawyers, one of whom is Glen S. Hummer.

Mr. Clyne summoned R. D. Butler, publisher, and Clifford V. Gregory, editor of the Prairie Farmer, to his office and read them the hot article.

"I showed them their article in context in every essential particular," Mr. Clyne said. "The charge of political influence is absurd. The case was reported to me in August, 1915, and the indictment was returned with the coming of the first grand jury after that—in September. There has been no unnecessary delay."

As to the supposed animosity for Mr. Dorsey's lawyers, he said: "I am a Republican. I know him merely to say 'hello' to him."

"We will trace the source of the charges with a view to fixing responsibility."

THE ORDER OF THE DAY

"Today—and every day"

Ivory Plants Grow in Your Mouth

Look at the Plates Shown and Learn Why They Need Tender Care.

You will begin to take real care of your teeth as soon as you realize that every tooth in your head is a separate, living plant of ivory which with care will continue healthy and serviceable until you need it no longer and which with neglect, like any other plant, will decay, wither at the roots and die.

Absolute cleanliness is the solution of the problem of tooth care. Cleanliness from food deposits between the teeth. Cleanliness from the germ life that tends to swarm in every mouth. Cleanliness from deposits of tartar and scale on the teeth and under the gums. Cleanliness from decay spots.

Agreed toothbrush conscientiously and thoroughly used will take care of the food deposits and retard the accumulation of tartar.

An antiseptic and acid-neutralizing dentifrice like Sanitol Tooth Powder or Paste will destroy the germ life and keep the mouth sweet and pure, besides lessening the formation of tartar.

Your dentist twice a year will keep your teeth clean and clear of tartar, etc., under the gums, and will attend the tiny spots of decay that may have formed and prevent their spread.

This care of the teeth cannot be too soon—cannot ever be neglected if the teeth are to be straight, strong, healthy and white.

Look at plate one. Here are the little, conical teeth hidden from sight but all ready to sprout into visible ivory plants. The "self" thought which they must push their way (the tongue, nose, lips, and healthy gum) and just as the garden weeds have been planted, so the teeth are ready to grow.

Keep the infant's mouth clean and pure by washing the gums with a weak solution of Sanitol Liquid Antiseptic.

Plates 2, 3 and 4 show the formation of the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 5 and 6 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 7, 8 and 9 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 10 and 11 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 12 and 13 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 14 and 15 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 16 and 17 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 18 and 19 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 20 and 21 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 22 and 23 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 24 and 25 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 26 and 27 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 28 and 29 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 30 and 31 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 32 and 33 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

THE ORDER OF THE DAY

"Today—and every day"

Ivory Plants Grow in Your Mouth

Look at the Plates Shown and Learn Why They Need Tender Care.

You will begin to take real care of your teeth as soon as you realize that every tooth in your head is a separate, living plant of ivory which with care will continue healthy and serviceable until you need it no longer and which with neglect, like any other plant, will decay, wither at the roots and die.

Absolute cleanliness is the solution of the problem of tooth care. Cleanliness from food deposits between the teeth. Cleanliness from the germ life that tends to swarm in every mouth. Cleanliness from deposits of tartar and scale on the teeth and under the gums. Cleanliness from decay spots.

Agreed toothbrush conscientiously and thoroughly used will take care of the food deposits and retard the accumulation of tartar.

An antiseptic and acid-neutralizing dentifrice like Sanitol Tooth Powder or Paste will destroy the germ life and keep the mouth sweet and pure, besides lessening the formation of tartar.

Your dentist twice a year will keep your teeth clean and clear of tartar, etc., under the gums, and will attend the tiny spots of decay that may have formed and prevent their spread.

This care of the teeth cannot be too soon—cannot ever be neglected if the teeth are to be straight, strong, healthy and white.

Look at plate one. Here are the little, conical teeth hidden from sight but all ready to sprout into visible ivory plants. The "self" thought which they must push their way (the tongue, nose, lips, and healthy gum) and just as the garden weeds have been planted, so the teeth are ready to grow.

Keep the infant's mouth clean and pure by washing the gums with a weak solution of Sanitol Liquid Antiseptic.

Plates 2, 3 and 4 show the formation of the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 5 and 6 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 7, 8 and 9 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 10 and 11 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 12 and 13 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 14 and 15 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 16 and 17 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 18 and 19 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 20 and 21 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 22 and 23 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

Plates 24 and 25 show the teeth in their sockets and other teeth coming through and in position. During this period the mother or the nurse should clean the child's mouth with a weak solution of Sanitol Liquid Antiseptic.

BIG POSTOFFICE PLAN MEETS WIDE APPROVAL

Congress Gets Pledge Signed by Thousands Asking Single Postal Facilities in Chicago.

Charles H. Wacker, chairman of the Chicago Post Office commission, believes Chicago is going to be awarded a postoffice adequate to its needs. Mr. Wacker says he is optimistic by nature, but in this case is ready to back his statement with solid facts.

A decided impetus was given the movement today," he said yesterday. "Congressman Thomas Gallagher presented to the public buildings and grounds committee at Washington the petition of 1,500 business firms in Chicago and resolutions passed by business organizations in 125 cities in eighteen different states, all urging Chicago's needs."

The signatures included those of 700 manufacturers, 1,100 wholesale and retail merchants, 40 bankers, 100 hotel and shoe dealers, 200 clothing and furnishing dealers, 100 contractors and builders, 100 professional men, 400 real estate men, and thousands in other lines. The petition was found in leather and contained a foreword by Mayor Thompson.

Must Be Back to Prison.

Max Baer, who served fourteen years of a thirty-three year sentence for the murder of Frits Hebecker, will have to go back to the institution to serve out his term.

Decree. A jury in Judge Finch's court yesterday found him guilty of attempted burglary.

"You're the First Girl I Ever Kissed."

HONOR SYSTEM FOR GOPHERS AS AMATEURS

Football Men Volunteer to
Obey All Rules of the
Big Nine Code.

Minneapolis, Minn., Feb. 10.—The University of Minnesota football team on Jan. 28 voluntarily agreed to play on the honor system for the season of 1916, against any infractions of the rules of amateurism and adoption of the honor system for Minnesota football, thus taking the first step in what is expected to be a country-wide move to solve the summer football problem.

The dinner at which action was taken was attended by coaches, alumni football stars, and candidates for this year's team. The following agreement regarding rule breaking was signed:

We, the undersigned, a representative group of the University of Minnesota football team, do hereby affirm our belief in the principle of amateurism and our belief in the principle of the honor system for college football.

Those present in university athletics said after today's announcement that information available indicated other conference universities would adopt the honor system in the near future.

Semester Training Move.
Bloomington, Ind., Feb. 10.—Prof. C. J. Sembover, chairman of the athletic board of control of Indiana university, was greatly interested when told of the adoption of the honor system in athletics by the University of Minnesota.

MAY HAVE SPORT-SMALL.

Dean Albin W. Small, University of Chicago, representative on the western college conference board, saw in the Minnesota move the means for saving baseball as a big nine sport. He said that the honor system for college athletics was a means as had been sought for years by conference college authorities to do away with professional football and to rule out "singers."

"It strikes me that the idea is just what was wanted," he said, referring to the pledge of amateurism taken by the Gopher football men. "To have the men themselves come forward and accept this standard is just what we have been working for years."

We Place for Professionalism.
"This will put college football where it belongs—among the professionals. It will have no effect on college baseball players, but will have a good deal of indirect bearing on the status of baseball as a conference sport. It will probably save this sport."

**DUNTLEY CHOSEN
AUTO CLUB HEAD**

BY L. M. STEVENS.

William O. Duntley, president of the Chicago Automobile Club, was elected president of the Chicago Automobile club yesterday to succeed J. T. Brown. The regular election was held at the club's headquarters at 100 N. Dearborn street.

The 1916 racing season will be inaugurated by the Chicago Automobile club on Feb. 12 at the Chicago track. The club will have a good deal of indirect bearing on the status of baseball as a conference sport. It will probably save this sport.

MATURO'S SPURT DEFEATS CAPRON IN CUE CONTEST

BY J. G. DAVIS.
Jimmy Maturo added another victory by defeating Joe Capron of Leffingwell's 100 to 0 in seventy-four innings of cue yesterday night.

The north side veteran was unable to get the hang of the cueball and in the first twenty-five innings scored only one point. Starting with the thirty-first inning, Maturo began to count more steadily and by totaling 100 points in twenty-two innings, got on even terms with the Italian expert, each scoring 100 points at the end of the sixty-fourth inning.

LOW PASSPORT '14 Act
CHILDREN ADMITTED

A dark, grainy, black and white photograph of a textured surface, possibly a wall or floor. In the upper left corner, there is a dark rectangular object, which appears to be a piece of tape or a label. The surface has a mottled, uneven texture with various shades of gray and black. The overall image quality is poor, with high contrast and significant noise.

WHEAT RALLIES AFTER SEBACK; SHORTS BUYERS

Liquidation is Checked; Cash
Grain Strong; Corn Has
Big Uplift.

Liquidation of long wheat was again the feature of the trade yesterday, but after the selling had spent its force considerable house took the offerings had put the price for the previous day and July was only a few cents lower. The close was a little lower. The close was a little lower. The close was a little lower.

Cash wheat prices strong. Sales for export in all positions were about 1,000,000 bu. and local sales were 100,000 bu. There was a good inquiry reported in all markets. The northwest markets were firm. High rates were being asked for the export of navigation.

Weather conditions in this country were favorable, but the movement of grain in the northwest is slow. With warmer weather there should be a big run. The market is likely to be extremely sensitive to crop news in the next few months.

Receipts here were 95 cars and primary receipts were 1,000 bu. against 500 bu. a year ago. Receipts northwest were 37 cars; last year, 302 cars. Winnipeg receipts were 146 cars, against 98 cars a year ago. Clearances for the week were 27,000 bu. against 17,000 bu. a year ago.

Big Demand for Corn. Corn was strong relatively throughout the season, and sales that were influenced by the weakness in wheat were easily absorbed. Final prices were 70¢ to 71¢ higher, and the market was generally bullish. Broccoli estimates the exportable surplus in Argentina the coming season at 30,000,000 bushels, against 25,000,000 in 1915.

Only stock of United Kingdom. Continental stocks discontinued for the present, as reliable figures cannot be obtained. The market is likely to be extremely sensitive to crop news in the next few months.

Receipts were 104 cars and primary receipts were 1,000 bu. against 500 bu. a year ago. Receipts northwest were 37 cars; last year, 302 cars. Winnipeg receipts were 146 cars, against 98 cars a year ago.

Only stock of United Kingdom. Continental stocks discontinued for the present, as reliable figures cannot be obtained. The market is likely to be extremely sensitive to crop news in the next few months.

URGES SUBSIDY IN SHIP BILL

TILT WITH REDFIELD.

Washington, D. C., Feb. 19.—Whether the administration ship purchase bill shall stand as drawn or have written into it a

Representing opposite views were Secretary Redfield of the department of commerce, who indorsed the measure as introduced, and W. H. Douglas, chairman of the committee.

United States chamber of commerce, who insisted that the country wanted private lines subsidized rather than government operation of shipping.

Redfield Urges Speed.

Mr. Redfield urged that the bill be enacted into law speedily, so that construction of ships can be begun at the earliest possible date.

Mr. Douglas declared there was a deep rooted feeling against the government entering the shipping business, but that a

the hearty cooperation of snippers and would result in an immediate restoration of the American flag to the seas. He suggested a time limit of five years on government operations of any ships to be bought.

Mr. Douglas followed an assertion by Mr. Douglas that public sympathy was not with the bill. Chairman Alexander questioned the authenticity of referendum reports of commercial organizations against the measure submitted by the witness. It was suggested that they did not repre-

Mr. Douglas had said that reports from more than two-thirds of the chamber of commerce units in the United States showed a vote of 990 to 83 against government operation of ships, while a pre-

Mrs. Grau Hearing Deferred.
Hearing on a petition to adjudge Mrs. Fanny Gray Grau, 2750 Walnut street, a feeble-minded person, was postponed one week at the psychopathic hospital yesterday.
